

# Quantum Energy Medicine Conference

Copenhagen 2008

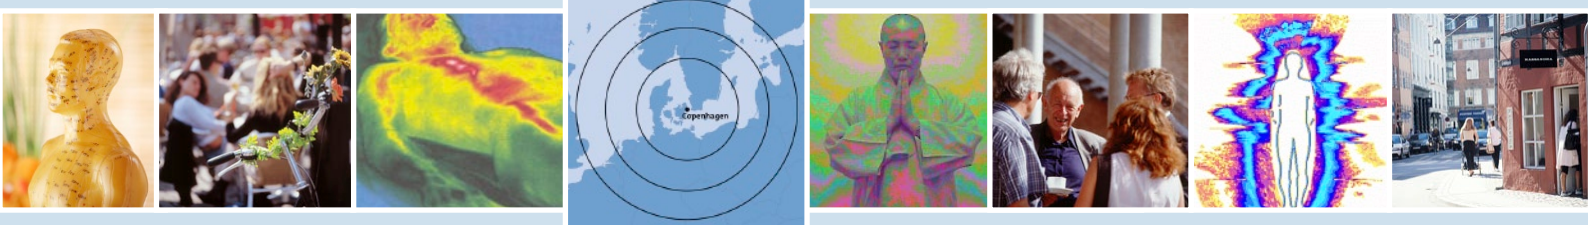

## What if...

- We are essentially energy beings?
- Modern medicine is just the tip of the iceberg?
- Healing the “incurable” is possible and real?

Following great feedback and pleas for more, this conference is a development of the last two quantum energy medicine conferences in Stockholm, 2006 and 2007. The biggest of its type in Scandinavia and a first for Denmark, this will bring a new energy to the Faculty of Health Sciences. World renowned scientists, practitioners and experts highly dedicated to their fields and sizzling with enthusiasm are gathering from many corners of the globe to contribute to this event.

We hope these three days will assist a shift in awareness in the area of holistic and quantum energy medicine. No matter the breadth of your knowledge, if you do not want your outlook on health to be altered, then think twice about coming!

**This is a non-profit event and open for all!**

## Friday: Deep Science

Presentations by scientists behind the leading edge of discoveries explaining field theory, humans as quantum beings, communication within the body and between body and field, the power of intention, etc. – all relating to health.

Speakers include:

- Dr. James Oschman (USA),
- Dr. Mae-Wan Ho (UK),
- Prof. Dr. Fritz Albert Popp (DE),
- Prof. Eng. Konstantin Meyl (DE)
- Peter Fraser (Australia)

## Saturday: Applications

Talks and workshops with presenters who have developed innovative and therapeutic methodologies and devices, working in the areas of quantum, bioresonance and energy medicine. Addressing scientific principles of the technology, its methodology, advantages and disadvantages of treatment, efficacy of treatment in relation to various health issues. Including also workshops with more hands-on information.

Speakers include: Dr. Thornton Streeter (India), Victor Sims (UK), Rolf/Silvia Binder (USA) and more + workshops on SCIO, L.I.F.E, EIS, Introspect, NES, Ondamed, Cem-Tech, PTD, e-lybra and Protolite

## Sunday: Best Practice

From around the world this section presents outstanding practitioners who have developed, applied and are willing to share their best practice in treating specific health problems using quantum and energy medicine.

Speakers include:

- Dr. Jeremy Sherr (Israel)
- Dr. Audun Myskja (Norway)
- Dr. James Oschman (USA)
- Jane Lloyd (UK)
- ...and more.

- When?** Friday 19<sup>th</sup> - Sunday 21<sup>st</sup> September 2008
- Where?** Friday: Rigshospitalet (The National University Hospital)  
Saturday and Sunday: Copenhagen University's Faculty of Health Sciences, Panum Institutet
- Why?** “To explore, expand and challenge the boundaries of health concepts and systems”  
...in a sort of nutshell...!
- Who?** The conference is organised by Quantum Health Scandinavia Aps
- More info?** Check out [www.quantum-medicine.com](http://www.quantum-medicine.com)
